

ZTX

PERFORMANCE. **FIRST.**

ELECTROFUSION WELDING WIPES

ZTX ELECTROFUSION WELDING WIPES are a lint free wipe with a 90% isopropyl alcohol solution to effectively remove contamination and moisture on pipe surfaces prior to the electrofusion (welding) of pipes.

ZTX ELECTROFUSION WELDING WIPES reduce the risk of a failed weld by removing contamination and moisture off pipe surfaces prior to electrofusion. The wipes are designed to leave no traces of lint and are strong, durable and will not break down when you need them to perform.

For use on:

- PE Pipe
- Fittings

How is it available?

CODE	DESCRIPTION	QUANTITY
JS00963	75 wipe canister	Box of 12

Removes moisture and contamination
